

Advanced technology cleaning

Aftercare for all your tech
at home, work and on the move

AF home and office

The definition of an office has evolved in recent years and AF International have developed a Core Range of products to meet all of the needs of many different office working environments.

We are living in a world where an office comes in all shapes and sizes; it could be a call centre, medical establishment or a home office. The changing nature of the office environment has prompted AF International to develop cleaning products for multiple uses.

A wide selection of categories highlights the range of exceptional products on offer. Including Spraydusters, Screen cleaning, Surface cleaning, Cleaning kits, Cloths and Maintenance – the Core Range from AF International.

Superduster ZERO™

NEW! A unique product from AF International. Superduster ZERO™ is a highly powerful, non-flammable and invertible sprayduster with a GWP (global warming potential) of just 1. This super-powered active carbon duster is fully compliant with the new F-Gas legislation.

SUDZ420D

Smart Wipe

The new AF Smart Wipe will revolutionise the world of screen cleaning with convenience at your fingertips. Daily grease and fingerprints on smartphones, screens, tablets and even spectacles is inevitable, but there is a solution. This box of 10 individual dry wipe sachets are super strong, washable and will leave a 'smear free' sparkling finish to any screen.

SMARTWIPE10

Hot Desk Kit

Brand new to the AF Core Range is the Hot Desk Kit; a cute drawstring bag of essential cleaning/maintenance products for hot desking requirements. In office environments hot desking is becoming increasingly popular and this handy little kit cleans workstations in super quick time.

HDK000

Spraydusters

AF International's spraydusters are all non-flammable and have been designed to combat dust and debris from inaccessible or hard to reach areas of equipment. There are a number of different strengths available and a combination of invertible/non-invertible products. The range also includes an innovative active carbon duster called Sprayduster Zero™. This product is fully compliant with the changing F-Gas Legislation that comes into effect from 1st January 2018.

Sprayduster ZERO™

Award winning and a world first. Sprayduster ZERO™ is non-flammable, invertible, has a GWP (global warming potential) of just one, three different 'blast' strengths and zero odour. Fully Compliant with the new F-Gas legislation.

SDZ420D

Superduster ZERO™

NEW! A unique product from AF International. Superduster ZERO™ is a highly powerful, non-flammable and invertible sprayduster with a GWP (global warming potential) of just 1. This super-powered active carbon duster is fully compliant with the new F-Gas legislation.

SUDZ420D
